READ AND BE WISE.

IF, in the course of human events, it becomes necessary to use Stories and Dialogues in bringing the advertisement of goods to the notice of the public, and being determined not to be left lingering behind in the march of time, I will step into the ranks to tell my numerous customers and the public in general, that I am not crushed out yet by the fremendous size and extraordinary cheapness of the stocks of Clothing that is brought to this town and sold for the "small amount" of so and so many dollars per plece, with a profit of the "small sum," or "small amount" of fifty to sixty per cent, on them, but I am still on hand, full sized as ever, (only a little more so), and try to keep on hand a full ascorted Stock of ALL KINDS OF

And every thing else generally kept in a well conducted Clothing Establishment.

True, we have no Hoop Skirts or Razors, Bed Spreads nor Lamp Chimneys; neither have we mock Jewelry nor Hair Dresses, Toy Drums nor Small Combs; but what we do have we will sell you at its value, not at the "small sum of a triffe above first cost," for that is not true and would not agree with the heading of this article; but we will charge you a living profit.

Since, by selling Goods we make our living, and by selling in reality without humbug, at a "triffe above cost," no man can live, unless he calls that "triffe" 39 or 39 per cent.

My epistle being now about the length of a common Dialogue advertisement, I will close, inviting the public in general and everybody in particular, to call at my Store and satisfy themselves that I am in existence yet, and have plenty of Goods to sell them as above stated, and what is more so, I will have in due time, a new stock of Spring and Summer Goods that will astonish even the two neighbors of the dialogue.

NOTHING that is not wholesome, senial and resterative in its nature enters into the composition of Hostetter's Stomach Bitters. As a General Toni. Rostetter's Bitters produce effects which must be experienced or witnessed before they can be fully appreciated. In cases of Constitutional weakness, Premature Decay and Debility and Decreptude arising from Old Age, it exercises the electric isfluence. In the convalencent stages of all diseases it operates as a delightful invigerant. When the powers of natire are relaxed, it operates to re-enforce and re-estalligh them.

Last, but not least, it is the only Safe Stimulant, being manufactured from sound and innicuous materials and entirely free from the acid elements present more or least to all ordinary tonics and stomachies of the day.
